SUMMARY

Full Stack Developer and Computer Science undergraduate with experience building scalable web apps. Skilled in React.js, Node.js, and MongoDB, with hands-on experience deploying cloud-ready applications using AWS, Docker, and Nginx.

PROJECTS

DevSwap

🔗 https://github.com/whomimohshukla/devSwap.live

Freelance Marketplace

- Built a full-stack platform for developers to match, swap skills, and collaborate in real time.
- Implemented secure auth and profiles (JWT, bcrypt) with session controls and role-based access.
- Delivered Redis-backed skill matching, real-time chat/notifications, WebRTC signaling, and code editor sync via Socket.io.
- Added AI-powered lesson plans and session summaries (OpenAI) with caching for performance.
- Responsive UI with React + Vite + Tailwind; backend on Node.js/Express/MongoDB/Redis; containerized with Docker and deployed to AWS/Vercel/Netlify.

BookMyBus

🔗 https://github.com/whomimohshukla/Book-My-Bus

Online Bus Ticket Booking System

- Built a responsive full-stack web application for seamless online bus ticket booking
- Developed secure user authentication and session management using JWT
- Integrated real-time seat selection and online payment gateway for smooth user experience
- Created an admin dashboard for managing buses, routes, bookings, and users

Chatrr

🔗 https://github.com/whomimohshukla/Chatr-

Connect with Strangers Worldwide

- Built a modern platform for video and text communication with global strangers
- Integrated WebRTC for real-time high-quality video and audio streaming
- Added features like mute/unmute, dark mode, and dynamic room pairing
- Developed a responsive interface for smooth usage across mobile and desktop

SkillBridge

🔗 https://github.com/whomimohshukla/-Freelance-Marketplace--Project

Freelance-Marketplace

- Developed a full-stack marketplace where clients can post jobs and freelancers can bid with milestones.
- Implemented secure authentication and profiles using JWT and bcrypt, with distinct roles for clients and freelancers.
- Enabled real-time chat and notifications via Socket.io.
- Designed and integrated features such as search/filtering, dashboards, reviews/ratings, and basic admin moderation.
- Built the platform using React with Tailwind CSS for frontend and Node.js with Express for backend, backed by MongoDB.

SKILLS

Frontend

React.js   JavaScript   C

Tailwind CSS   HTML5   CSS3   C++

TypeScript   Node.js   Express.js

MongoDB   PostgreSQL   RESTful APIs

WebSockets   JWT Authentication   Git

GitHub   Postman   Redis   Docker

Nginx   CI/CD   Vercel   Netlify

Railway   AWS   Socket.io   Bull MQ

KEY ACHIEVEMENTS

☆ **Achievements in Problem Solving**
Solved 180+ algorithmic problems on LeetCode, demonstrating strong skills in data structures and algorithms.

💎 **NPTEL-IOT**
Successfully completed NPTEL certification in Internet of Things (IoT)

EDUCATION

Bachelor of Technology in Computer Science

IIMT University

📅 08/2022 - 06/2026   📍 Meerut, Uttar Pradesh

High School

G.T.B.E Academy

📅 2019   📍 Shahjahanpur, Uttar Pradesh

Sr. Secondary School

G.T.B.E Academy

📅 2021   📍 Shahjahanpur, Uttar Pradesh
