PROFESSIONAL EXPERIENCE

Taurgo

Full Stack Developer & Tech Lead (Backend Heavy)

Jan 2026 – Present

Remote, Cardiff, UK

- Architected modular **NestJS microservices** backend with **REST API** design, migrated 3 services to **AWS EC2** with Nginx reverse proxy, SSL/TLS, and PM2 — improving scalability and eliminating manual ops.
- Built AI-powered image analysis pipeline integrating vision model for auto-generating structured survey content and property descriptions for 360° virtual tours.
- Optimised **PostgreSQL** schemas, implemented **API rate limiting** and **Redis** caching across core routes — reducing redundant DB calls by ~40% and improving **API performance** under load.

SmallFare

Full Stack Developer & Team Lead Intern

Sep 2025 – Dec 2025

Hyderabad, India

- Led a 2-member team — managed sprint planning, code reviews, and delivery of **REST APIs** for a live event ticketing product (EFOrganize); received Letter of Recommendation.
- Implemented **Redis TTL** caching and **API rate limiting** on high-traffic routes; integrated **TimescaleDB** for analytics and configured **Docker + GitHub Actions** CI/CD pipeline.

PROJECTS

ClaimWise UK | Next.js, NestJS, Node.js, PostgreSQL, Prisma, Redis, AWS EC2, Claude AI

[Live](#) | [GitHub](#)

- FinTech SaaS using Claude AI to surface unclaimed UK benefits across 40+ schemes from a £24.1B/year pool; **REST API** backend with **API rate limiting**, 3-tier freemium billing, and India-to-UK payouts.
- JWT** auth with refresh rotation, **OAuth 2.0**, 14-model Prisma schema, PDF parsing, Redis caching; deployed on **AWS EC2** with Nginx + HTTPS and GitHub Actions CI/CD.

BookMyBus | Node.js, Express.js, Socket.io, MongoDB, Redis, Docker, AWS

[Live](#) | [GitHub](#)

- Real-time ticketing platform with **REST API** backend, GPS tracking, dynamic seat locking via Socket.io, **API rate limiting**, Razorpay payments; Dockerized on **AWS** with Nginx load balancing.

DevSwap | Node.js, Express.js, Socket.io, WebRTC, Redis, MongoDB, Docker, AWS EC2

[Live](#) | [GitHub](#)

- Skill-exchange platform with **REST API** backend, **Redis**-backed matching, **API rate limiting**, Socket.io real-time chat, and WebRTC screen-share; Dockerized on **AWS EC2** behind Nginx reverse proxy.
